

WHAT'S NEW:

The 2017 Global Oral Health Summit is Quickly Approaching

It's almost time for the 2017 Global Oral Health Summit—don't miss your last chance to register! Held in sunny Orlando, Florida, this year's event offers a number of networking and educational opportunities that you don't want to miss!

- Different learning levels for beginners/entry level, intermediate, and advanced CS OrthoTrac users
- No pre-registration required for classes
- Your questions answered by OrthoTrac support
- An in-person presentation, where you'll have TWO chances to learn about the new features in the Treatment Card

Register today and save \$400 on your registration! Just use the discount code LevelUp.

Coming Soon: New-and-improved OrthoTrac functionality

The new user-friendly and intuitive treatment card gives you an improved viewing experience and a more efficient workflow. Now, important information is available at a glance. Coming soon in OrthoTrac v 14.

Meet Uriyah

Uriyah is an experienced marketing professional with diverse career experience: global product management, sales support, business development, data analysis, market research, strategy and engineering. Prior to joining our company as a product line manager for OrthoTrac, he worked as a strategic marketing manager with a global leader in the healthcare industry and completed his MBA from Georgia Tech.

CS Boost Gives You Anytime Access to Patient Data

If you are a OrthoTrac Cloud user, remember to use CS Boost, a mobile and web-based application that allows you to view schedules of your different office locations and patient information from any location with an internet or 4G data connection. If you haven't enabled CS Boost in your OrthoTrac software, check out the quick-and-easy way here:

CS OrthoTrac Tips and tricks

- Score patient hygiene at each visit by simply clicking a photograph that most closely matches the patient's oral hygiene at each visit. Then everyone in the office is on the same page about each patient's hygiene rating.
- Discover how your practice has changed over the past three years with the financial analysis module. By generating an easy-to-read report and supporting graph, you have all of your critical practice data at your fingertips—without having to hire an outside party.
