

WHAT'S NEW IN CS R4+ V6.6

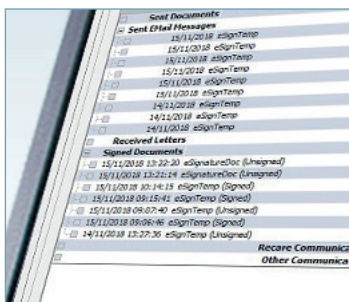

1 NEW eSIGNATURES CREATE
Personalise your own bespoke documents for mail merge and capture of patient signatures electronically.

BENEFITS
Move away from paper completely and eliminate scanning by creating your own documents directly in CS R4+ for electronic signature capture.

2 NEW eSIGNATURE CREATE EDITABLE TEMPLATES
Edit, amend and save templates to include the patients eSignature.

BENEFITS
Save directly into CS R4+ patient communications tab custom documents together with your patients electronic signature.

3 eSIGNATURES CREATE DOCUMENT MANAGER
Automatic storage and retrieval of all eSignatures documentation.

BENEFITS
Easily view, print and email a signed document for your patient. Documents are not editable so changes need to be captured each time. All are stored in date order, so simple to identify.

4 eSIGNATURES MEDICAL HISTORY
All medical histories now have a 'signed by' prompt.

BENEFITS
This will capture who eSigned the document when it is not the patient, i.e. carer, parent.

5 eSIGNATURE FOR NHS WALES
Wales PR form in eSignatures.

BENEFITS
FP17 PR forms are now included in the functionality for eSignatures.

6 SMS TEXT MESSAGING IMPROVEMENTS
Improvements to the transportation of your sensitive patient data for SMS text services through our validated partner, Healthcare Communications.

BENEFITS
Our validated partner, Healthcare Communications, are making significant changes to the method used to deliver your SMS text messages to your patients. This change will guarantee the required care of your business-critical patient data.

7 NEW eAPPOINTMENT CARDS
Send SMS text or email appointment cards for all appointments directly to your patient.

BENEFITS
Whether your patient is on the phone or in the practice, immediately confirm their booked appointments by text or email with no need for printed or hand written cards.

8 INTEGRATION TO NEW CS IMAGING V8
Integral links to the New CS Imaging 8 acquisition software.

BENEFITS
Enhanced features and functionality offered by the New CS Imaging 8 software are now fully integrated with CS R4+ for a seamless workflow.

9 PASSWORD SECURITY IMPROVEMENTS
User password improvements.

BENEFITS
An option for practices increasing data security by enforcing a password for users with increased complexity.

10 AUDIT SECURITY IMPROVEMENTS
Increased audit logs for changes to patient details.

BENEFITS
Tracking of changes to the patient record in the audit of CS R4+ detailing when changes are made and by which logged in user.

11 COMPATIBILITY ENHANCEMENTS
CS R4+ to work with an SQL 2016 & SQL 2017 installations.

BENEFITS
Updated technology compatibility.

Charges	Payments	DPB	Balance	Status	Entry T
