

'Boost your business with CS R4+ Springboard V.2'

Free regional training sessions

The value of Springboard is clear; seeing the current state of your practice, there and then, in REAL TIME empowers you to make informed choices to propel your practice to the next level. No other practice management system on the market offers you this detail as part of your core software.

With the launch of Springboard V2, we've added more KPI's providing you with a wealth of information about your data. This course has been developed for you, to ensure you are maximising the power of your CS R4+ software for the benefit of your business and patients.
